

DREAMWORKS
OVER THE HEDGE™
FUN FACTS

Raccoons will over-eat when nursing. Baby raccoons are called kits. Raccoons can easily unlock doors. The heaviest raccoon on record weighed 62 pounds.

Skunks have poor vision but their sense of smell and hearing are good. A skunk can spray its musk accurately up to 10 feet and less accurately to about 16 feet.

Like your bones, a turtle's shell is part of its skeleton. The turtle cannot crawl out of its shell, because the shell is permanently attached to the spine of the rib cage.

Squirrels typically live in trees, in holes in the trunk or in treetop crow's nests. The homes in the treetops are called dreys and sometimes consist of two rooms and a nursery.
